Hi Jayme,

As we discussed last week there was one outstanding comment from the Uppers application.

WSP has prepared the attached response. Can you please review and advise.

Good morning Sean and Andrew,

Attached please find a response from WSP to the one remaining JART comment that we missed re the Water Study monitoring program.

If this wording is acceptable, we will make this change to the ARA Site Plans.

Thanks,
Deb

Good morning Sean and Andrew,

Attached please find the **Headwater Drainage Feature Assessment Field Notes** from Stantec which was agreed to be provided as per the response provided to Comment No. 18 (from Dougan and Associates), also attached for reference.

Sean - I still owe you a response to the one outstanding Water Study comment which I will forward along once it is received from WSP.

Thank you,
Deb

Good morning Sean and Andrew,

Further to our previous submission, we noticed some of the section references were not properly matching up in the EIS so Stantec has corrected this in the version at the link below:

If there is any issue with the transfer, please let me know. I may need Stantec to send this directly to ensure permissions are granted.

Also, further to the comment/response matrix note, Stantec is retrieving from their archive and pulling together the additional field work note information requested by NPCA and this information will be further submitted once compiled. Stantec expects to have this available for submission by Monday.

Thanks for your patience,
Debra
